

Our Signature Projects.....

✓ Design, Manufacturing, Supply, Erection, Testing and Commissioning of Relay and Control Panels including but not limited to the following Signature Projects:

- Nigeria 132/33kV Grid stations
- Shalamar 220/132kV Grid Station
- Mubarkpur MEPCO 132kV Grid Station
- Dera Murad Jamali 220kV Grid Station
- Hyundai Engineering Co. GEPCO 132kV Grid Station
- FIEDMC 132/11kV substation Faisalabad
- Sheranwala and Khiyali 132kV Grid Stations

- ✓ Manufacturing & Supply of Marshaling Kiosk (MK) for Dera Murad Jamali 220kV Grid Station
- ✓ Supply of Synchronizing Panel for 220kV Bandala Grid Station
- ✓ AC/DC auxiliary supply Panels for 132kV Sheranwala and Khiyali Grid Stations
- ✓ AC/DC auxiliary supply Panels for 220/132kV Kot Lakhpat, Lahore Grid Station
- ✓ AC auxiliary supply Panels for 132kV & 220kV Rohri Grid Station
- ✓ Numerous other 132kV Grid Stations for DISCOs (Utility Supply Distribution companies)

Quality Assurance

Our products are tested to be in full accordance with the PEL Integrated Management System Policy. All the products that we deliver to our customers are subjected to exceptionally high standards of quality that we have set for ourselves based upon latest national and international standards.

Our Products Range...

PEL offers a wide variety of relay and control panels for power system solution up to 220kV. We offer our products and expertise for relay and control panels required for protection and control of transmission lines, bus bars, power transformers, bus coupler, circuit breakers and other grid station equipment for all types of commonly used bus bar schemes. In addition to these products we also offer Remote Tap Changer Control Panel, Marshalling Kiosks and AC/DC auxiliary panels for grid auxiliary supply protection, control and distribution.

PEL RECOP (Grid Station Relay and Control panels)

PEL is the pioneer and leading switchgear manufacturer in Pakistan with more than 60 years of experience in this field.

We have specialized teams for primary design, secondary design, relay testing, grid commissioning project management and execution. These highly competent teams are capable of providing right solutions for customized requirements in control and protection of electrical system.

PEL has supplied its products for various prestigious projects and Grid stations nationwide as well as abroad. We enjoy excellent market reputation and a cherished history.

PEL has geared up to meet the challenges of both contemporary and future era, in the technological field of Engineering.

We have state of the art CNC and fabrication workshops, fully equipped chemical treatment facility and advanced electrostatic powder paint process facility, enhancing our capability to engineer all the components required for control and relay panels in house.
